Greetings Participants and Caregivers!

Spring is slowly approaching and after the Michigan winter we just experienced, I think it’s safe to say we would all enjoy some sunshine and warm air! As we welcome the season of spring, we look forward to new beginnings! One of the new opportunities for PACE Southeast Michigan was the opening of our 4th Center in Dearborn on February 12, 2018. We are very excited and proud to serve aging adults in Dearborn and the surrounding communities! To keep bus rides short and ensure that we continue to add PACE Centers closer to where our aging adults live, our next Center will be positioned in Macomb County and is scheduled for late fall, 2018.

We are proud of our team and the Extraordinary Care they provide to you each and every day! This is one of our greatest strengths. We also know we need to continually make improvements so that you consistently receive the highest quality care and service! For 2018, we set goals to improve the coordination and communication of scheduling appointments, and how our care team focuses on you! We based this goal on feedback provided by you, our Participant Advisory Committees and from caregivers and participants attending the quarterly Dinner and Dialogues. (see more in this newsletter).

As always, this newsletter is meant to keep you informed on what PACE Southeast Michigan can offer you and your loved ones! We are grateful for your trusted partnership as we continue to serve you!

Peace.

Mary

Meet Dr. Menchl, our new physician at our Warren Center! Dr. Rudolph Menchl is a skilled clinician who brings more than 25 years of experience and a wealth of knowledge in the caring for an aging population. Dr. Menchl graduated from Wayne State University’s School of Medicine. We are excited about the expertise, leadership, and charismatic personality that he brings to the clinic in our Warren Center!

Meet Dearborn’s Center Manager, Fouad (Fred) Achmar! Fred is the Dearborn Center Manager for PACE Southeast Michigan. He will work closely with participants and their caregivers to provide them the best quality of care. Fred is a Lebanese/American citizen who moved to Michigan from Kuwait with his family. He has great leadership skills and experience with both Middle Eastern and American cultures. Fred holds a degree from Ferris State University. He brings a lot of experience in operations and customer care. His caring attitude and creativity make him a valued member of our team.

As a PACE Southeast Michigan participant, all health care services are provided and arranged by your personal health care team. PACE participants may be fully liable for the costs of medical services from an out-of-network provider or without prior authorization with the exception of emergency services.
IN-SEASON FRUITS AND VEGETABLES

Spring is the time to take advantage of eating fresh fruits and vegetables. Here is a guide on what is the best choice to eat this season:

**April, May**

**Honeydew** – Low calorie; high in vitamin C

- **How to Store**
  - *Store melons at room temperature. Once cut, store in refrigerator for up to 2 weeks.*

**Green Beans** – Good source of fiber; good source of vitamin C

- **How to Select**
  - *Choose well colored beans that snap easily when bent.*

- **How to Store**
  - *Refrigerate green beans in plastic bag for up to 5 days.*

**Pineapples** – High in vitamin C; high in magnesium; high in B vitamins

- **How to Select**
  - *Choose pineapples with dark green leaves, heavy for size.*

- **How to Store**
  - *Eat as soon as possible or refrigerate for up to 3 days.*

**Spinach** – High in fiber, high in vitamin A; high in vitamin C; high in iron; good source of magnesium

- **How to Select**
  - *Choose fresh, crisp, green bunches.*

- **How to Store**
  - *Loosely wrap spinach in damp paper towel.*
  - *Refrigerate in plastic bag and use within 3-5 days.*

Thank You Southeast Michigan Dietetic Association!

We send our thanks to the Southeast Michigan Dietetic Association. Their donation provided our participants with fresh fruits and vegetables as well as information on the benefits of eating them.
MEET OUR TRANSPORTATION TEAM

The Transportation team is a vital part of our program. They provide daily trips to and from our day health centers, food and medication delivery, and much more. This team makes sure our participants get from each point in their trips safely and timely. They get to know our participants very well during transport. With our program growing quickly, the transportation team needs to grow even quicker. By providing the most organized and timely trips to each participant with new technology, the team can provide the best experience for our participants.

PACE Transportation Team by the Numbers:

• 600-700 Trips per Day
• 719 Total Participants
• 4 Centers
• 59 Drivers
• 3 Dispatchers
• 52 Buses
