

Supplementary statement made to Gus T. Jones, Special Agent in Charge, Division of Investigation, U. S. Department of Justice, San Antonio, Texas, to be made a part of the statement made on this date. This statement is made under the same conditions as my previous statement and after the same explanation of my constitutional rights.

Concerning the following letter found in my files in my place of business at 111 South Flores Street, and which letter I voluntarily turned over to Mr. Jones:

"September 25, 1933.

"Dear Pal

"Could not write sooner the address here is

"Mr. Joseph Bennett
3242 Sixteenth Ave. So.
Minneapolis, Minn.

"Enclose my personal letter in another envelope addressed to 'Jimmie'.

"Hope to hear some good news from you soon. Don't get me any more outfits like the last one. It was 'one way' like I thought it was. I'm sure you understand what I mean. But don't let it worry you.

As ever your pal,

Jimmie."

I received the above letter from Jimmie Williams. It was posted in Minneapolis, Minnesota, and since having it called to my attention I now know that I was mistaken in the address of Jimmie Williams which I said in my previous statement was 1632 South Preston Street, St. Paul, Minnesota. I now am sure that the address mentioned in the above letter is the place I shipped all the guns described in my former statement. I do not know what made me mention the South Preston Street address. I can not recall that I ever communicated with anyone at that address.

The outfit Jimmie refers to in the letter was a machine gun I sold him in September, 1933. I recall now that Jimmie and his wife returned to San Antonio about the tenth of September, 1933 and remained about three days. There was no one else with them. At that time he also bought one .38 Colt super-automatic and a .25 caliber automatic pistol. This machine gun I obtained from Izzey/Shap-pu, Corpus Christi, Texas. My brother-in-law, Louis/Schwartzman, who travels for me, had told Izzey that if he could get a machine gun I would buy it. I believe that Izzey got the gun from a deputy sheriff. He called me up and I went down to Corpus and got the gun and I believe I paid him \$150.00 for the gun. I brought it to San Antonio and Jimmie was leaving that night and I delivered the

58

gun to him. He paid me \$300.00 for it. This transaction was about the middle of September, 1933. At that time I was making no record of transactions of this kind and I have no record to refer to to refresh my memory.

Jimmie shipped this gun back to me to be repaired as it would not operate "full auto" and that is what he meant by his statement in the above letter that it was "one way." I repaired this gun and showed it to him when he came to San Antonio in November, 1933. At that time he said he would give me an address to ship the gun to him but he never did. The machine gun I am now referring to is the gun found in my place of business this morning. It has no serial number on it now although I am sure it did have when I delivered it to Jimmie in September, 1933. This gun I am now voluntarily turning over to Gus T. Jones for the purpose of tracing its identity.

Concerning the Colt .45 automatic, with the number filed off and secret number 173697, this gun was obtained by me from Wolf & Klar sometime in November 1933. I believe I sold this gun to Keith or at least it was to one of the bunch that was here in November. It was traded back to me for a .38 super automatic. At the time I obtained the gun the serial number was intact but when I got it back it had been removed. This is the gun found in my desk drawer and was not with my regular stock of guns. I am turning this gun over to Gus T. Jones in order that it can be traced to verify whether or not I obtained it in the manner I have here stated.

Concerning the .45 caliber colt automatic, serial number 161971 (secret) this gun was dismantled by me in the shape it was found and I was building it into a machine gun; the hand grip found with it was to have been affixed to the gun and the gun was to have been made to fire "full auto." This job was ordered done by Wayne Huttner while the gang was here in November, 1933. The job was not finished when Huttner left and I was to deliver it to Keith but did not on account of his arrest. This gun was not sold by me and I do not know where they obtained it.

Concerning the nickle-plated .45 caliber Army automatic, serial number 77149, I am positive that this gun was left with me for repairs several months ago by some party I do not know. I held this gun for some time and placed it in my show window but realizing that it was a Government gun I took it from the window and placed it in my safe where it was found today. I have turned this gun over to Gus T. Jones in order that it can be returned to the military authorities from whom it must have been stolen. I know that none of these guns, bearing the stamp "United States Property" are for sale.

I can not think of anything additional to say at this time except that the United States Army Springfield Rifle found in my place, serial #646706, was left there by a man named Stanfield for repairs several months ago. Stanfield did

not leave any address and I do not know him.

This statement is the truth and is made to Gus T. Jones, San Antonio, Texas, on April 29, 1934.

H. S. Lehman
