Meet the Board p. 5
Alaska: The Last Frontier p. 13
Golf Tournament p. 19
Latest LA & TX Permits p. 25
Hello SGS Members! I hope this newsletter finds you happy, healthy, and in the shade.

We thought we were out of the woods, but it seems that may not be the case. With COVID-19 cases continuing to rise and hospitals running out of bed space, the threat of the pandemic just won’t go away. At the time of the last SGS newsletter published before summer break (May 2021), things were beginning to change for the better: the US was averaging below 50,000 new cases per day, stores and restaurants were beginning to return to normal, mask mandates were being lifted, and air travel was becoming popular again. Fast forward to where we are today: daily average case numbers are back above 100,000, mask mandates are being reinstated, and some areas of our country are even considering new lockdowns. The summer months brought lots of change surrounding the pandemic, but the divided nature of our nation is something that was certainly left unchanged. Are these new restrictions justified? Is there really a right answer? Only time will tell.

The summer months, however, did bring some positive changes as well. While WTI crude prices averaged $39.68 per barrel in 2020, the economic recovery of 2021 has driven prices back up to the $65 - $70 range. A similar story has unfolded in the natural gas market, with prices moving from an average of $2.05/mcf in 2020 to the $3.50 - 4.00/mcf range over the last few months. One can only hope that the economic recovery will continue and that these prices will be supported through the so-called “Great Reopening.”

Summer in the South always comes with one unavoidable
aspect: the heat. While we had a mild beginning to the summer season, July and August seemed destined to change that. We can’t get too bummed out about the heat though, as a portion of the recent rise in natural gas prices can be attributed to power demand from all of the AC units running! If your significant other likes to keep the house as cold as mine does, I am sure we are all doing our parts to support natural gas prices.

I would like to extend a big thank you to the SGS Board Members that rolled off over the summer break: Matthew Chumley, who served as President for 2020-21, Sarah Wilkes, who served as 1st Vice President for 2020-21, and Jamey Walker, who served as director for continuing education courses. During a year that was not easy for anyone, these three individuals did an incredible job of keeping SGS running smoothly. I would like to also welcome the new board members for 2021-22: Kelly Byram, Will Downs, and Kurt Ley. I am sure they will all do an excellent job serving SGS over the next three years.

The 28th Annual ALTAPL/SGS Golf Tournament is being held on Friday, September 24, 2021 at East Ridge Country Club. Spots are filling up fast, so I encourage you to sign up ASAP if you would like to participate!

Michael Danos has the rewarding job of Program Director this year as our 2nd Vice President and I know he has an exciting lineup of speakers on the schedule. Our first member meeting will be on September 21, 2021. We will have the pleasure of hearing from George W. Roth about “Exploration for Precious and Base Metals in Alaska: The Last Frontier.” We are working to offer our member meetings in both an in-person and virtual format to allow for more people to enjoy the speakers.

I hope to see many of you at our events this year and I am looking forward to a more normal SGS season compared to what we went through in 2020.

Best regards,
Ian M. Byram

You can donate to the SGS Scholarship Fund online at SGS1.org or by writing a check to the SGS with “Scholarship” in the memo line, and you may include an “in memory of” or “in honor of” note as well.

Mail to: Shreveport Geological Society, P.O Box 750, Shreveport, LA 71162.
Meet The Board

President Ian M. Byram is a geologist working for Heritage Energy Company and EGH Operating, LLC. This is his third year on the SGS Board, and he is honored to serve as the Board’s President. Ian graduated in geology and business from SMU and received his M.S. in geology from Baylor University. He enjoys hunting, gardening, snowboarding, mountain biking, hiking, and anything else involving the outdoors.

First Vice President Kurt Ley began his career as a geologist for Superior Oil in 1981. He later worked for Tenneco, Apache, and Stroud Production before co-founding Kingwood Exploration in 2007. He has served on several industry and local boards, and was SGS President in 2008. Kurt and his wife Patti stay busy with their 7 grandchildren, but in their spare time, they enjoy traveling – splitting their trips between mountain hikes and the beach.

Second Vice President Michael Danos holds a Bachelor of Science Degree in Business Administration and Finance from Northwestern State University. He has worked throughout the oilfield since 1994 gaining a background that includes offshore construction, gas cryogenics, and field geology. Michael cofounded Toledo Mudlogging in 2002 and become President in 2013, a position that he currently holds. In his free time, Michael enjoys hunting & fishing with his kids and friends. He is honored to serve on the SGS Board, an organization to which he has belonged for many years.

Meet The Board
(continued)

Secretary Gary Abrams is approaching 19 years at Stroud Exploration. Graduated with a BS in geology from Vanderbilt University and and MS from the University of Texas at El Paso. Actively working TX, LA and MS. Served previously as VP and President of SGS as well as President of SPDA. Enjoys sports activities, traveling as well as time at Lake Bistineau.

Treasurer Kevin McMaster has worked as a geologist in Shreveport for most of the past 36 years. Since 2015, he has been working as a consultant for numerous companies in Dallas and Shreveport. Prior to 2015, he worked for SM Energy in Shreveport and Tulsa for almost 14 years. He has previously served on the board and as an officer for the Shreveport Geological Society.

Board Member Bezany Branton has been a geologist at Jones Environmental, Inc. for 17 years. She moved from Venezuela in 1997 to attend Louisiana Tech University. She graduated with a BS in Geology in 2002. In her free time, she enjoys spending time with her adorable kids, Leo and Vanessa.

Board Member Kelly Byram is currently a geologist for TYGR Energy. He has spent his career generating prospects in the Ark-La-Tex for various companies including Crystal Oil, Medallion Production Co., KCS Resources and Petrohawk Energy. Kelly is a private pilot who enjoys flying whenever and wherever he can. He is married and has two sons and a daughter.
Meet The Board
(continued)

Board Member Stuart Oden is manager of Oden & Assoc., LLC, an exploration company which was formed in 1996 focusing on exploration in South Louisiana and East Texas. He graduated from the Citadel (1975) and LSU -BR (1978) with an MS degree in geology. Stuart went to work for Sun Oil Co. in 1978 and then on to Goodrich Oil Co. where he worked as a geologist for 16 yrs. He enjoys forestry, deer hunting, and most importantly LSU baseball. He looks forward to working with and learning from the younger members of the SGS.

Board Member Will Downs is an established oil and gas industry executive with 40 years of experience in public and private E&P, A&D and service sectors. He earned a B.S. in Geology from Centenary College of Louisiana.

Executive Assistant to the Board Annie Green is a Geotech for Nadel and Gussman. She serves as SGS’s Executive Assistant to the Board and Publication Committee Chairman. She also serves on the boards of Haughton Metropolitan Planning Commission, Christmas in Haughton, and National Night Out. In her free time, Annie enjoys outdoor adventures with her husband and three sons.

George W. Roth has 46 years of exploration and development experience in oil and gas and precious and base metals both internationally and domestically.

George received a BS in Geology in 1974 from Buffalo State University, Buffalo, New York, and did Post Graduate work in Hydrogeology at Wright State University, Ohio, and Post Graduate work in Structural Geology at the University of Texas at Dallas.

He began his career in 1975 in the Rockies with Core Laboratories and was the Chief Development Geologist for W. R. Grace and the Chief Geologist, Frontier Division of Hunt Oil Company in Denver. In 1989 George was transferred to Dallas with Hunt Oil and continued exploring in frontier basins from Alaska to the Canadian Maritimes. In 1995 he was assigned to the Indian Ocean Passive Margin Team with Hunt Overseas as Team Leader and evaluated the hydrocarbon potential of 19 basins from South Africa to the East Coast of India. In 2001 he joined Range Resources Corp in Fort Worth and worked on a variety of projects in East Texas, Louisiana, and the Appalachian Basin.

Burnett Oil hired George in 2014 to be the V.P. of Exploration for the private family company in Fort Worth, and since 2017 he has been a consulting geologist for Chisholm Energy working in the Permian Basin and continues to evaluate the precious and base metal potential of Alaska through Crooked Creek Exploration LLC.

George is an Emeritus member of the AAPG, and a member of the Rocky Mountain Association of Geologists, the Fort Worth Geological Society, SIPES, and the Alaska Miners Association. He is a Registered Professional Geologist in the State of Wyoming.

Abstract

“Exploration for Precious and Base Metals in Alaska: The Last Frontier”

Alaska’s 67 diverse metallogenic mining regions and districts has an underexplored base and precious mineral-resource potential, and currently hosts several world class deposits with over 50 million ounces of lode gold discovered since 1996 making Alaska a Top Tier mining jurisdiction. Alaska ranks 7th worldwide for mineral potential, “Best Practices Mineral Potential” (Fraser Inst. 2020), and 4th worldwide for investment attractiveness (Fraser Inst. 2020). However, 67% of the known placer districts do not have an associated lode gold deposit; therefore discovery potential of additional large ore deposits is great.

Alaska has 6 lode mines producing gold and base metals, 1 coal mine, more than 200 placer gold workings, and at least 35 active advanced – through early stage, lode exploration projects. The U.S. depends on foreign sources for more than 50% of its supply of 31 of the 35 minerals considered critical to the nation’s economic and national security, including 100% import-reliance for 14 of these. Gold is considered a pathfinder mineral to six of these critical metals which can often be found in association with placer and lode gold deposits in Alaska. The Tintina Gold Belt of central Alaska is 150,000+ sq. km. (2x Permian Basin) it is particularly well endowed with large intrusion related gold systems (IRG) and the critical minerals associated with them. Alaska’s total exploration spending in 2020 was approximately $111 million, 41% of this budget was directed toward mine site exploration, an all-time high.

In 1971 Nixon signed the Alaska Native Claims Settlement Act (ANSCA) into law. The Act established 13 regional and 224 village corporations giving native ownership to lands throughout the state, which today total 38 million acres approximately 12% of Alaska. Unlike the Lower 48 tribes the Alaska Native Corporations have sovereignty over these lands making them a unique exploration partner.

Dear Friends and Sponsors of the Shreveport Geological and Ark-La-Tex Landman Societies: It’s that time of the year again to announce the upcoming SGS/ALTAPL Golf Tournament to be held at East Ridge Country Club on Friday, September 24, 2021. The event will kick off with lunch beginning at 11:30 a.m. and proceed with a shotgun start at 1:00 p.m. followed by an evening of food and door prizes made possible by your sponsorship donations.

Please consider and respond as soon as possible with your much-appreciated sponsorship, so a realistic budget can be proposed by our planning committee. A prompt response will also assure that your contribution will be affirmed and recognized by all in attendance. All sponsors will be included on a banner which will be displayed at check-in and at the awards reception.

We look forward to your involvement not only in sponsorship, but also in the camaraderie of the golf tournament.

The golf entry fee includes green fees, golf cart, golf apparel, hamburger bar lunch, hors d’oeuvres dinner, beverages, and door prizes. The Social Fee includes dinner, beverages, door prizes and entertainment. *The social fee must be paid ahead of time as no money will be collected at the door.*

The golf tournament will be a flighted four man scramble. Assemble your foursome with all handicaps as well as contact phone number, email address and SHIRT SIZE (or we will give you a smedium).

A handicap MUST be listed for each member of your foursome in order to properly flight the teams. Prizes will be rewarded for flight winners, hole-in-ones, closest to the hole on all par threes and winners of the long drive contests.
ALTAPl/SGS Golf Tournament
Friday, September 24, 2021
(continued)

Due to the overwhelming popularity of this annual event, the tournament will be held for society members and guests only. Please make sure your SGS & ALTAPl dues are current and please make sure team payment is made accordingly!

The deadline for entering will be Friday, September 10, 2021 and will be limited to a first come first served basis. The field is LIMITED TO 32 TEAMS, as there will ONLY be an AFTERNOON, 1:00 p.m. TEE TIME THIS YEAR.

The event will kick off with lunch beginning at 11:30 a.m. and proceed with a shotgun start at 1:00 p.m. followed by an evening of food, beverages, awards and door prizes.

If you have any questions please call us at the numbers listed or email us at the.altpal@gmail.com.

Sincerely,

Your 2021 Tournament Committee

Please find entry forms and more online: altapl.org.
Chris Sumner presented “Geology of Bellevue Salt Dome and EOR Overview - A regional view of the past, present and what is needed in the future.”Incoming SGS president Ian Byram thanked departing board members, including Jamey Walker and Sarah Kaye Wilkes, for their service.

(* Deceased)
In Memoriam:  
John Franklin Templin II, Ph.D.

John F. Templin, II, Ph.D. passed from this life on August 19, 2021.

John was a force of nature. He rarely rested, he did everything big, and he loved his family and his friends with every ounce of his spirit. The stories of John’s generosity, his practical jokes, and his eccentricities fill volumes in the hearts of those that know and love him.

John was a protector. He had a heart for “underdogs,” and always noticed the needs of people around him and took action to help. His resources, his love, and his time were always free and easily given. He would often ask people, “Do you know what I love about you?” The answer for decades was always “everything.”

John is with Jesus Christ his Lord and Savior in heaven. He loved to be outside, and that is often where he felt the presence of God. He spent his time in retirement tirelessly building a sanctuary on his property in Keithville to share with his family and friends. He knew that his Father in heaven was doing the same for him.

John was born on August 6, 1956 in Camp Lejeune, North Carolina where his father was stationed in the United States Marine Corps. John's family later moved to Shreveport, LA and Carthage, TX where John graduated from Carthage High School. He attended Louisiana Tech University in Ruston, LA and earned an Associate's of Science in Technical Drafting and later a Bachelor's of Science in Geology. After many years working in the Geology industry, he went back to school at Louisiana Baptist University and earned a Ph.D. in Business Development.
Geoscientist Licensing in Louisiana

Did you know?

When you attend a monthly Shreveport Geological Society meeting, you earn one hour of continuing education credit for your LBOPG license. This is a simple and enjoyable way to get your hours! You can also find links to continuing education ethics credit courses at https://sgs1.org/continuing-education/.

Ready to track your CE hours?

Visit the LBOPG website today to download your continuing education log template lbopg.org/resources/continuing-education
