## Press Release – TEPPFA

Brussels, 22-04-2015

### TEPPFA at the Plastic Piping Systems Congress 2015

TEPPFA is the proud partner of Austrian Standards for the Plastic Piping Systems Congress 2015 on Innovation, Application & Standardization which will take place in Wien (Austria) the 18<sup>th</sup> and 19<sup>th</sup>, May 2015.

The Plastics Piping Systems Congress is organized by Austrian Standards in cooperation with the 57th CEN/TC 155 meeting and with the presence of the exhibitor *Gerodur*. In the enchanting setting of Wien, high representatives and stakeholders of the industry will discuss around a dense programme which has been designed by the Advisory Board of Austrian Standards with the support from CEN/TC 155. The programme comprises six main themes that focus on new processing and testing as applied to PE100-RC material, PVC and structural wall pipes.

As the main partner, TEPPFA supports the Congress and in the person of Mr. Tony Calton, TEPPFA General Manager, will take part to Session E on processing, application and testing of PVC, joined by the speakers Mr. Divanach (*Chair of CEN/TC155 WG 6, FR*), Mr. Muschik (*Staatliche Vegrsuchsanstalt – TGM*) and Mr. Meerman (*Tessenderlo Group*). During Session E, Mr. Calton will present a topic on “Environmental product and declaration (EPD) of PCV Pipes”.

To learn more on schedule, topics covered and speakers, the updated programme is now available at:
