

# Multi-Level Carbon Monoxide (CO) Detector

Minimum  
**18**  
Month  
Sensor Life!\*

Reliable monitor to protect against CO poisoning:

- Aviation
- Auto
- Home
- Workplace
- Recreation

## Proprietary Carbon Monoxide Sensor

- Minimum 18 month product life
- Affords protection at broadest range of temperature and humidity
- COspecific

## Multi-Level Detection

- Normal = Yellow
- Caution = Green
- Danger = Dark Blue

## Biomimetic Technology

- Responds to CO in manner similar to the human body
- Rapid sensor regeneration

## Unique Package

- Customer assembly not required
- One-step activation eliminated possible sensor contamination by end-user
- Sensor is protected against accidental contamination

\* Once detector has been opened by end-user.

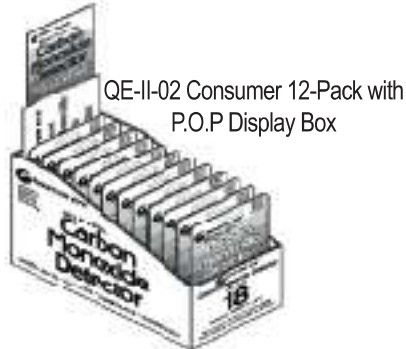

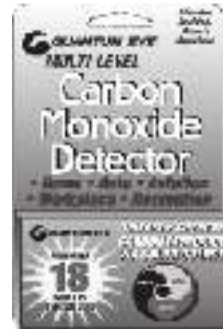

# Multi-Level Carbon Monoxide (CO) Detector

QE-II-01 Promotional 24-Pack

QE-II-02 Consumer 12-Pack with P.O.P Display Box

QE-II Consumer 24-Pack

QE-II-03 Consumer 48-Pack with 4 Hanging Clipstrips

**Operating Range:** 41°F to 100°F (5°C to 38°C)  
25% to 90% Relative Humidity

**Sensor Regeneration:** Caution: 2 Hours  
Danger: 6 Hours

**Potential Uses:**

- Aviation Cockpits
- Workplace
- I.D. Badges
- Promotions
