Project: 555 Milan Hill Road, Milan, N.Y. / Asbestos Abatement / Revised

Supervisor for all work except certified asbestos abatement: Frank Liutich (his expenses will not be paid by BSB Construction Inc.)

We are pleased to submit our fixed price cost to furnish all supervision, labor, equipment, material, and insurance to perform the following scope of work at the above referenced location.

Scope of work:

The removal and disposal of approx. 8500 sq. ft. of asbestos containing transite interior walls with entire structure using a site specific variance files by BSB Construction.

BSB will make a path from side road to access debris on top of ridge. All trees and brush will be stacked along the sides of the path.

In addition, BSB will remove specified garbage found during site visit, which includes, 2 cars, 2 small sheds, debris along top and bottom of ridge.

Note: BSB will not be responsible for removing large cinder block chicken coops. It will make a commercially reasonable effort to remove all garbage and debris with assistance from the Supervisor.

All work to be performed in strict accordance with ICR 56-17, Federal EPA, OSHA, and all local guidelines.

Exclusions:
Demolition Permits
Disconnection of any/all Utilities
AST and UST
Concrete Foundations, Slabs and Footings
3rd Party Air Monitoring

Notification Fee **\$ 2,000.00 (Large Project)**

Variance Fee **\$ 750.00**

TOTAL BID **\$ 52,480.00**
