

InventiveLabs

Igniting passions in a collaborative entrepreneurial environment

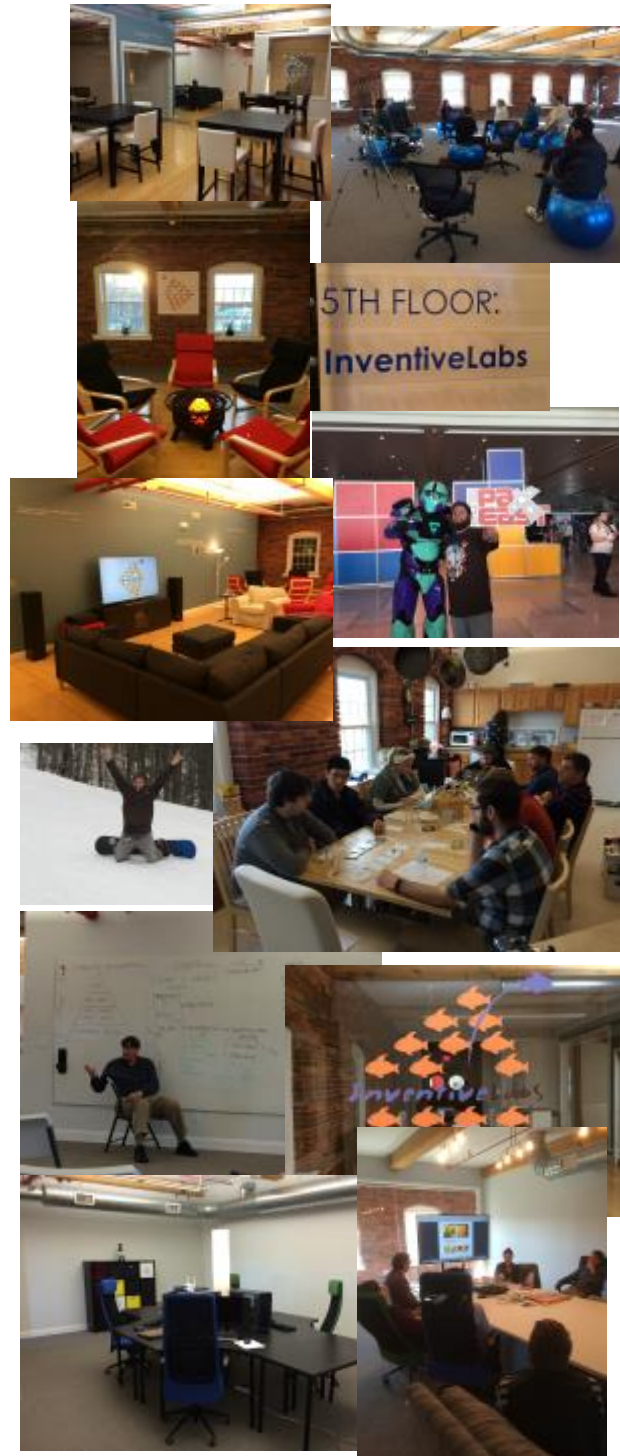

InventiveLabs offers a unique experience to young adults seeking an extraordinary Gap Year experience. At the Lab you get to explore your passions in a collaborative entrepreneurial incubator and turn them into tangible business opportunities.

The Lab offers a different way to gain experience and ensure that you enter college in the right major and at the right college.

With the mentorship of experienced business leaders, you get to investigate and experience your career choice instead of just reading about it.

bring your ideas to life!*

GAP YEAR PROGRAM

Join an established business incubator and explore your passions before committing to a career path in college

- Try multiple business ideas
- Learn business basics
- Launch a Kickstarter!
- Build prototypes
- Brainstorm with your peers

Program Structure

At the Lab, we will take you through a multi-stage brainstorming process exploring your different passions with the goal of figuring out a project to pursue while at the Lab. It could be creating a prototype, trying a Kickstarter to make some spending money, or simply researching multiple career options.

Lunch and learn sessions with business mentors from the community take place throughout the program giving multiple perspectives on career options.

At the end of the program, there is a pitch competition with various prizes available. Teaming up, where appropriate, is encouraged.
