

International Seminar Tuesday April 14th kl. 19.30

International Tromsø – an inclusive society?

Tromsø is a city in rapid growth. It is a political vision that the city's population will reach 120,000 within 30 years. This requires that less people move away from Tromsø, and that more people move here from other cities and countries.

- How shall Tromsø receive these new inhabitants?
- Are foreign workers a resource for the city?
- What types of meeting places does a multicultural city need?
- What can Tromsø learn from other cities in Norway?
