Step 1
Print out the next page onto stiff card.

Step 2
Cut out the head and the snorkel.

Step 3
Colour in as you wish.

Step 3
Cut out some small holes where the eyes are.

Step 4
Make two holes halfway between the eyes and the edge of the fur (where the red dots are) and tie some elastic between them.

Step 5 (optional)
If you like, cut carefully around the nose starting a little below the eyes (see the red line). This will make the nose stick out a little bit and give the mask a bit more depth.

Have fun!
