To Whom It May Concern,

Residential Services, La Trobe University, utilised the services of Ashley Gurney, from AlcoCups for staff and student leadership training in 2011. Training was first provided to all Residential Services staff, (approximately 30 individuals), as part of a professional development program, followed by training for all student leaders, undertaking Residential Assistant, Social Club and Academic Mentoring roles, in each of the residences at La Trobe University, Bundoora Campus.

The training provided was interactive and informative, and we received very positive feedback from our student leadership group. As a result, Residential Services will be requesting the services of AlcoCups for our student leadership training in early 2013. We will be extending this training to include our student leadership groups at our Bendigo campus as well, thus including a total of approximately 220 student leaders across both campuses.

I would highly recommend Ashley and the training he provides through AlcoCups. He was personable, engaging and very willing to modify or add to his presentation as per our requests.

Kind Regards,

Laura Burge
Acting Residential Life Coordinator
Centre for Residential Life
Division of Residential Services
