Testimonial for alcocups training at Monash Residential Services:

In 2012, Monash Residential Services ran a pilot presentation of the alcocups program at our Peninsula campus. So impressed were we at the feedback from our residents that for 2013, we trained 30 staff and student leaders from all 15 of our Residences at a 'train the trainer' course, and rolled out alcocups as part of our Orientation program for all students.

I think the messages which alcocups presents to our students are invaluable in assisting them to make good and appropriate decisions when drinking alcohol (and indeed after they have drunk alcohol). The interactive program helps the students engage with the concepts for deeply than 'just another lecture' - and from my perspective the use of peers as the presenters of the program makes it even more valuable as a tool in helping our students learn to make better decisions around alcohol.

I am a very strong supporter of Ashley and his team and look forward to working with them to make the program even more effective in the future,

Sincerely,

Jonathan Brown
