Global Growers and the City of Decatur are partnering once again for our annual fundraiser, Grown to Gather, a culinary celebration of locally grown food prepared by talented chefs from around the city. This event showcases fresh, local produce harvested by Global Growers and the fantastic meal combinations of some of Atlanta’s top Chef’s. We are excited to offer this exclusive sponsorship level to highlight and promote locally-owned businesses in our community.

**BENEFITS - $1,000 LEVEL**
- company name listed in all event promotions including press release and program
- recognition on event webpage
- exclusive sponsor highlight on social media
- opportunity to provide featured items in auction packages
- four tickets to the event, which includes cocktail hour and a multi-course family-style dinner

Global Growers supports the people who grow healthy food for our community. By providing growers with an ecosystem of support, we strengthen the local economy while making healthy produce abundant and accessible to communities throughout the region. Due to our work, there is significantly more fresh food in metro-Atlanta, particularly in food insecure neighborhoods. There is also more farmable land, more growers and more opportunities for growers to sell their produce.
