

**DEAD
RINGER**

our approach to selecting wine is straightforward; “is it delicious?!”

we exclusively stock Australasian wines & support smaller producers as much as we can.

by sourcing locally we're able to reduce our footprint on the environment in terms of transportation whilst supporting local growers & winemakers.

we select & price wines for everyday drinking & aim to describe them with minimal “wine-babble”.

our wines are all current vintage - we love bottles that scream “drink me now”. please ask a staff member if you require any specific vintage info.

cheers!!
