## NAUKABOUT HOUSE BLEND DRAFT COLD BREW COFFEE

Using one of the fermenters in the brewery we steep our house blend in cold water for over 36 hours allowing the beans' delicious essence to be gently extracted over time. This delicate process uses no heat, which results in lower acidity and a smoother, naturally sweet taste. While this process takes more time, effort and uses three times more coffee than brewing hot coffee. The resulting cold brew speaks for itself. Smooth,

subtly sweet and perfect for anytime of day. **20oz \$3.56**
