

Compact Dumping Machine Comparison Table

The compact dumping machines, created by German manufacturer PowerPac, have many useful applications. They are compact enough to fit through most residential gates and are tough enough to traverse over rough and steep terrain. They allow for reduced construction times and reduced physical strain on workers. There are tracked and wheeled machines available. The tracked machines reduce stress on high trafficked areas such as grass, sidewalks and driveways which can often suffer from the impact of larger equipment. There is also an electric version available which allows access to even more locations.

Model	Payload	Capacity	Width	Length	Power Source	Engine Power	Max Speed	Price
	lb	yd ³	in	in			km/h	\$
RC-1200	2645	1	38.6	96.4	Gas	11 HP	4	24,025
RC-1000	2204	1/2	30.5	82.7	Gas	10.6	4	22,505
RC-800	1765	2/3	35.7	91.2	Gas	11 HP	4	17,450
RC-550	1100	1/4	24.5	62	Gas	5.5 HP	5.6	8,750
RC-450	990	-	28.9	67.5	Gas	4.5 HP	5.6	6,575
RC-360	790	-	23.7	60.2	Gas	4.5 HP	3.6	5,475
RDE-500	1100	-	26.4	65.7	Electric	4.1HP (3KW)	6	12,750
AC-600M	1,320	1/2 +	32	68	Gas	6.5 HP	4	12,675
AC-600P	1,320	1/4 +	32	65.6	Gas	6.5 HP	4	12,675
