

tarmac with our Model As. Attendees can rent flights in a couple of planes. Food will be sold there too. More information will follow.

We will hold our own **safety** check at **Gar William's** garage or possibly at **Vogtel Auto** in Warrenville on Saturday, May 10th. The time is to be decided.

The *Model-A* starter repair tech session was held at **Gar William's** garage on Saturday, March 8th at 8:00am. Coffee and rolls were provided. **Dan Manola** did a session on "growler" armature testing, and **Noel Delessio** did one on testing the field coils. The membership thanked **Gar** for the generous use of his garage.

Gene reported that the *Naper As Brick* at the *Gilmore Museum* is in place. He will check to see if he can do a bulk order for License Plate Toppers from the Gilmore Museum. The cost for one is currently \$12 plus \$2 shipping.

Gene is still planning outings to *Starved Rock* or *White Pines*. He recommended a *Rock River* cruise near *Oregon, IL*. The cost is \$30/person. We will decide at the May meeting.

Gene also recommends a *Pond Tour in Geneva*. There are some very beautiful homes that are worth seeing. The date is 10:00 am, May 17th. We can decide at the May meeting.

There is a *Roaring Twenties Day* in September. The organizers are looking for six *Model As* to take part in the events.

Tech Sessions

Ron Olson shared an idea about using a pipe insulator to cover extension cords lying across car fenders etc. The insulator protects the finish and eliminates scuffs and marks.

Stu Carstens bought a bead breaker to remove tires. He says it works well as long as the rubber is not too hard. Most cars have old tires that are rock hard.

A break shop in Wisconsin called Rock Quiet Brakes that do brakes for a very reasonable cost. The work has been excellent.
