SIP
Annunciator

Simultaneously activate audible notifications to all or select SIP phones and speakers

Features

Notification Coverage
Designed for large area high-occupancy facilities with multiple locations.

Targeting
Activate SIP phones by page group line number.

Secure
Utilize existing phone system security.

Immediate Activation
Activate and cancel alerts directly from the Alertus server.

Emergency Alerting
Send an emergency notification to every phone in a defined target group. The alert will play an audio tone alert (optional) and a text-to-speech message over the phone's speaker until canceled.

Specifications

Alertus SIP phone notification uses software to seamlessly integrate with supported SIP phones.

SIP Server Compatibility
(Due to manufacturers' differences in SIP implementations, check with an Alertus Sales Consultant for the latest list of supported systems and limitations.)

- Asterisk
- OpenSER
- FreeSWITCH
- Panasonic NCP
- Mitel
- 3CX
- 3Com/HP VCX 7210
- ShoreTel

Functional Advantages
- Sends concurrent alerts to different groups of phones.
- Puts text-to-speech output to SIP extensions.
- Control and administer alerts from the Alertus Server.

Note: Does not work with Microsoft Lync Phone Systems.
