The Hovercraft Project is coming to your student’s school very soon. Please fill out, sign the attached Release of Liability Waiver (permission slip), and return it to your student’s teacher as soon as possible so your child can participate in this year’s Project Day. We look forward to working with your student and their teachers as they Learn to Love to Learn with The Hovercraft Project!

The Hovercraft Project works in schools across the country educating fifth and sixth grade students on building a working and rideable hovercraft. Students have a hands-on learning experience from start to finish. Students strategize and implement Science, Technology, Engineering, Art, Math, Team Dynamic and good Sportsmanship throughout the day.

Matthew Chase is the Founder and Inventor of The Hovercraft Project. He is an educator who loves to teach everywhere he goes. Matt will be the onsite manager for your school’s Hovercraft Project Day. You can find out more about The Hovercraft Project by visiting our website at www.TheHovercraftProject.com.

Best wishes from The Hovercraft Project!
