The Ecuador site is celebrating 10 years! On May 20th, the site held a party with the community. The celebration included classic and creative carnival games including students throwing water balloons at their teachers, the Program Directors. We also hosted a garage sale to raise funds for our programs, and food and music. As a fundraiser for our programs, we sold key chains at the Manna Project’s booth. Thanks to the generous support of the community, we raised over $1000. The different classes for basic, intermediate, and advanced levels will help each participant take their next step in advancing their livelihood opportunities.

In May, Manna Project Nicaragua was thrilled to welcome 10 summer interns on-site. Interns are current college students spending their summer break working alongside Program Directors. The four to eight week internship includes attending community programs, assisting in preparation, and supporting the Program Director team. Thank you to all our interns and to those of you who helped make this life-changing experience possible for them.

In anticipation for the new 1,000 Days of Difference initiative, Child Sponsorship has come to a final close with its last Milk Day. The final Milk Day consisted of the final and youngest nine children graduating from the program. Although it is bittersweet to see the children part from the program, Manna Project International is eager to begin the evidence-based 1,000 Days of Difference initiative in Villa Guadalupe and make an even greater impact in the community.

Ecuador Update

Newly launched, the Ecuador site is so excited to celebrate the 10th anniversary of the Ecuador site! The site held a party with the community on May 20th, which included classic and creative carnival games such as students throwing water balloons at their teachers, the Program Directors. They also hosted a garage sale to raise funds for their programs, and there was food and music. As a fundraiser for their programs, they sold key chains at the Manna Project’s booth. Thanks to the generous support of the community, they raised over $1000. The different classes for basic, intermediate, and advanced levels will help each participant take their next step in advancing their livelihood opportunities.

Nicaragua Update

In May, Manna Project Nicaragua was thrilled to welcome 10 summer interns on-site. Interns are current college students spending their summer break working alongside Program Directors. The four to eight week internship includes attending community programs, assisting in preparation, and supporting the Program Director team. Thank you to all our interns and to those of you who helped make this life-changing experience possible for them.

Emergency Preparedness Fair

The Emergency Preparedness Fair was hosted by students of the American Nicaraguan School in El Farito, their community space. Participants were taught vital life-saving skills, such as First Aid and CPR techniques. Many people attended, including members of the Cedro Galán community, Generation Students, and Health Promoters. The fair was a great success and participants received a First-Aid kit once their training was complete.

Final Child Sponsorship Milk Day

In anticipation for the new 1,000 Days of Difference initiative, Child Sponsorship has come to a final close with its last Milk Day. The final Milk Day consisted of the final and youngest nine children graduating from the program. Although it is bittersweet to see the children part from the program, Manna Project International is eager to begin the evidence-based 1,000 Days of Difference initiative in Villa Guadalupe and make an even greater impact in the community.
