Apply to be a 5, 7, 12, or 13-month volunteer Program Director at the community center!

Apply to be a summer intern to start a fun activity!

We are eternally grateful that Rafael and his son, who is a Manna Project English student, proposed the idea of starting a chess club for kids at the community center. After a lot of preparation, he created a number of chess boards and started teaching kids how to play every week. Chess has been an incredible addition to the community center's programming, and we have had quite a large turnout each week. Many parents have even taken interest in the chess club and we are planning to start an adult chess league soon.

Manna Project's Executive Director, Robert Grabel, visited Ecuador at the end of February. He spent his time growing stronger connections with current and past partners, checking out a post on the Ecuador blog, and helping program directors celebrate in the month of March! The 2018 Nicaragua Cedro Galán 5K is 10 days away! To learn more about Carnaval and read about how Program Directors have celebrated in the past, check out a post on the Ecuador blog. To learn more about the yearly festival, Ecuador recently celebrated the yearly festival, Carnaval! This event is recognized by spraying water balloons at their 70 students. It was an incredible and fun afternoon!

In Nicaragua, 25% of the population lives below the national poverty line. Make an impact year round. Donate monthly and help eliminate poverty.
