Nicaragua Country Update & Manna Project Site Update

To date in Nicaragua, 127 have been killed, more than 1,000 have been injured, and 116 have been detained. Violence between anti-government protesters and police forces has persisted for the past four months. Despite this, the Ministry of Health has continued its regular operations and services. The Ministry of Health continues to run the Telemedicine helpline, providing health consultations over the phone. In addition, the Ministry of Health has continued to distribute medical supplies and equipment to medical facilities across the country.

Celebrating Birthdays with Hogar de la Madre

This month, we would like to highlight one of Hogar de la Madre’s new babies, Wilber! He was born into the program, with one more on the way. Congrats to single mother Sara! He is one of 17 babies now in the newest additions to our 1,000 Days of Difference!

Preventing Cervical Cancer Through Health Education

In times of crisis, thanks to Manna Project, residents of Nicaragua can still access critical health care. Many of you have probably wondered if there is something you can do to help. For less than a dollar, our patients receive a high-quality medical consultation and any prescribed medication. To date in Nicaragua, 127 have been killed, more than 1,000 have been injured, and 116 have been detained. Raising a New Baby to 1,000 Days of Difference

The Ministry of Health has turned to our local staff to keep the Cedro Galán community clinic up and running while Program Directors are away from site due to the ongoing political situation in Nicaragua. This month, MPI has turned to our local staff to support our community health clinics during this critical time, please continue to provide your support.

Well-Being to our Summer Interns!

On June 14th we’re hosting an extended happy hour at Sudhouse on U Street in DC! From 6:00-9:00 we’d love to see you there! To learn more about the summer session of the Manna Project blog series, we invite you to visit the website. For questions or concerns please email summerintern@mannaproject.org.

Ecuador Updates

This month, the Ecuador site welcomed 11 new summer volunteers! Spending either four or eight weeks with Manna, volunteers are welcomed on site with full days of orientation, cultural activities and community programs. This month, MPI has turned to our local staff to keep the Cedro Galán community clinic up and running while Program Directors are away from site due to the ongoing political situation in Nicaragua. This month, MPI has been able to continue providing high quality patient care and care.
