Dear General Manager,

The cheerleaders of Cheer Leadership High School strive each year to not only bring positive energy and spirit to our school, but also to our community. We practice and work hard to be leaders in our school and community. We will be attending AWSL (Association of Washington Student Leaders) CheerLeadership camp at Central Washington University July 17-21, 2017. At camp we will learn the technical skills needed to be strong athletes and cheerleaders, as well as skills to become even better leaders within our communities.

This year our team, along with the other camp attendees, are being asked to bring items to create “**CHEER UP!**” bags for the homeless and less fortunate in our home communities. These bags will include, but are not limited to toiletries, snacks, gift cards, and emergency items. We understand that these items can truly make a difference for someone in need. We are asking others in our community to help partner with us by donating items to be used in this project to create our “**CHEER UP!**” bags. Our team has worked hard to raise funds to attend camp and we are looking forward to participating in this project. A contribution would be greatly appreciated to allow us to make as many bags as possible to share in our community.

A contribution to this project is a contribution to our community. Thank you for your consideration.

Cheers,

Cheer Leadership High School
