

## THE PET FUND COULDN'T COVER ME. CAN YOU SET ME UP ON A PAYMENT PLAN?

### A PAYMENT PLAN CAN BE THE DIFFERENCE BETWEEN LIFE AND DEATH FOR A PET

As the cost of care goes up, pet owners need payment options to afford needed care. Making payment plans with clients can be difficult and burdensome. With CareCap, in-house payment plans are easy, less costly than third-party financing, and help you help more pets.

Vets & Pet Owners love how CareCap helps!

*"About 80% of our clients have financial needs that are not met by insurance or third-party financing. That leaves an enormous number of people that are so grateful that we offer CareCap as an option they can turn to at our practice. We have received more positive results and income from CareCap in 90 days, than we have in years of offering other financial options."*
