Spring Announcements at TCC!

2018 Native Foodways Internship Opportunity!

We are currently seeking applicants for a paid internship with our Native Foodways Program from June – Oct 2018. This unique opportunity will connect the Intern with traditional food knowledge & sustainable growing practices, in order to gain skills in holistic indigenous eco-cultural stewardship. The Native Foodways Intern will have the power to shape their experience by focusing on projects that speak to their own strengths and interests, ultimately coming away with a deeper well of knowledge to help guide their future contributions to their Native community.

Please contact Maya Harjo for eligibility requirements and to apply, or check out our Facebook page for more details!

Coming Tomorrow May 15!
