PROFILE

I have been involved in media production for almost 20 years, specialising in television commercials, but have also managed tv series, music videos, short and feature films, stills photography, documentaries and corporate production.

As a skilled and experienced production manager I have coordinated shoots for both local and international productions throughout Australia, Asia and the UK.

My portfolio includes projects ranging from high budget complex shoots to guerilla shoots with limited resources, car shoots with tracking vehicles & low loaders, motion control, visual effects, extensive rigging designs, intricate art department builds and aerial and underwater filming.

To every job, however big or small, I bring a focussed energy, taking pride in my friendly professional approach and strong communication skills across the entire team.

I look forward to the opportunity to work with you.
