Parties in the Park, Inc. reviews all of the submitted band informational packets to determine which bands are appropriate to perform at a Party in the Park. If deemed appropriate, bands are placed on the Parties in the Park Approved Band List. The individual non-profit groups that sponsor a Party in the Park then select from the Parties in the Park Approved Band List and hire the band of the organization’s choice. Being included in the Parties in the Park Approved Band List does not guarantee the band will be hired for a Party in the Park during the upcoming season.
