Dear Senator,

We ask you to ensure passage of the Dream Act immediately, with no strings attached, and provide Dreamers with a pathway to permanent legal status and citizenship.

Dreamers have grown up in the U.S., speak English, have no criminal histories, serve in our military, staff our health care organizations, start new business, and contribute to our communities. The repeal of DACA would damage the U.S. economy and tear apart hundreds of thousands of families.

Our government must honor the promise it made to these young people. 800,000 Dreamers have proven themselves worthy of being here in the United States. Many of them have never known another home, and our country is stronger with them here.

Please pass the Dream Act and give them the chance to stay and continue contributing.

Sincerely,

Printed Name:
