**2015-2016**

**LCA encourages the safe and sensible use of the internet.**

- Students in 6<sup>th</sup> through 12<sup>th</sup> Grades along with their parents/guardians must read, discuss, sign, and return this Network and Internet Permission Slip to the Admissions Office.
- There is no expectation or right to privacy or right to freedom of speech when using the school's computer resources, which are the school's property. Any use of the school's computers and internet access must be in support of education and research and be consistent with the educational objectives of LCA.
- Using school facilities for internet access is a privilege, not a right. Inappropriate use which includes, but not limited to unauthorized transmittal or improper use of copyrighted materials or materials protected as trade secrets; transmission of threatening or obscene materials; vandalism of computer files; and violation of computer security as determined by the school administration can result in the cancellation, denial, suspension and/or revocation of those privileges and also subject the user to other disciplinary actions.
- Electronic and/or digital communications with students should be conducted for educationally appropriate purposes and employ only school sanctioned means of communication.
- Users must adhere to school policy that may further define uses of mobile devices. Access will be determined by the administration of the school. If a particular mobile device is to be used for educational purposes, the school administration and/or teacher will provide parameters for this use.

**Additional responsibilities for use of school facilities for internet are:**

1. When using networks or computing resources of other organizations, students must observe the rules of that organization regarding such use.
2. Users should not reveal their personal addresses or phone number(s), and shall not reveal personal information of others without authorization.
3. Users are reminded that email is not be accessed at school by students without permission from a school administrator and/or teacher..
4. Students shall immediately notify the system administrator/school administration if they suspect that a security problem with the system and/or internet exist.
5. Any attempt to log onto the internet or the school's network/system as a systems administrator will result in a loss of user privileges at the school. Any user identified as a security risk by school administration or system administrator due to a history of actual or suspected unauthorized access to other computer(s), network(s), or system(s) may be denied access to school computers, networks and/or systems.
6. LCA makes no warranty of any kind, whether expressed or implied, for internet service. This includes the loss of data resulting from delays or service interruptions caused by its own negligence or user errors or omissions. Use of any information obtained via the internet is at the user's risk. The school specifically denies any responsibility for the accuracy or quality of information obtained through its services.

7. Examples of Unacceptable Uses – Users are not permitted to:
  - a. Use of technology in cyber bullying: to harass, threaten, deceive, intimidate, offend, embarrass, or annoy any individual.
  - b. Post, publish, or display any defamatory, inaccurate, violent, abusive, profane, or sexually oriented material. Users must not knowingly or recklessly post false information about persons, students, staff, or any other organization.
  - c. Create any site or post any photograph, image, video, or likeness of any student or employee without the expressed permission of the individual, individual’s parent/guardian, and the school administrator.
  - d. Attempt to circumvent system security.
  - e. Violate license agreements, copy disks, CD-ROMs or other protected media.
8. Users must immediately report damage or change to the school’s hardware and/or software.
9. The school has the right to monitor student use of school computer, computer accessed content, and social media. Social media refers to activities that integrate technology, telecommunications, and social interaction through the use of words, images, video, or audio tools. Examples include, but are not limited to, social websites, blogs, message boards, wikis, podcasts, image – video-sharing sites, live webcasting, and real-time communities. Because this is a constantly evolving area, this policy applies to all new social media platforms whether or not they are specifically mentioned in this policy.
10. Violation of the above policy will be dealt with by school administration. Violation of this policy may result in any or all of the following:
  - a. Loss of use of the school network, computers, and software including internet access.
  - b. Disciplinary action including, but not limited to, dismissal and/or legal action by the school, civil authorities, or other involved parties.

The school retains the right to discipline students for their actions, regardless of when or where they occur, when those actions negatively impact the school’s image, reputation, and/or the safety and well-being of the school community. This covers inappropriate behavior in cyberspace.
