Overview DSNI/DNI is a nonprofit community-based planning organization founded in 1984 as the direct result of residents from Roxbury and North Dorchester coalescing around community revitalization. A comprehensive visioning process ensued which led to the rebuilding of the community. Unique in this effort was (1) the structuring of a board of directors to include a resident majority; (2) the creation of a neighborhood master plan, subsequently adopted by the City of Boston, which envisioned the area as a new Urban Village, that included new housing and an infrastructure of public amenities; (3) the acquisition of vacant land through the power of eminent domain, which DSNI/DNI received from the City of Boston to implement its master plan; and (4) the creation of a community land trust, which owns in perpetuity all the land redeveloped under the master plan and protects what has been built against future destabilizing market forces.

Today, DSNI/DNI is nationally recognized for its track-record in neighborhood revitalization efforts and its comprehensive approach to community and economic development. Our mission is to empower Dudley residents to organize, plan for, create and control a vibrant, diverse and high-quality neighborhood in collaboration with community partners. Our organization is currently focused on three areas of work: (1) Development Without Displacement – resistance to trends of “gentrification”; (2) Neighborhood Development – continuation of comprehensive initiatives with full participation by local residents, including the ongoing planning of a new Arts & Innovation District in Dorchester’s Upham’s Corner; and (3) Resident Empowerment – continued skill building and mobilization of local leaders to be the voice of the community.
