

A CHANCE TO WIN SOME LETTERING SUPPLIES

No matter how many videos you watch, how many books you look through or how many letterers you follow on Instagram, you won't get any better at your own lettering if you don't practice. The best way to hold yourself accountable and do the work every single day is to participate in a challenge, and to motivate you even more, at the end of the 31 days, I will choose one lucky winner that will get some cool lettering supplies to help you practice even more.

March Challenge - 31 days Let's get inspirational

We all need a little push in the right direction, so I thought that this month we should focus on helping each other and inspiring each other to do better and reach for our dreams.

Don't forget to use the hashtag **#InspireMarchTLC** and **#theletteringcourse** when posting online so we can all find each other. And tag me @twoeasels on Instagram so I can easily find you when it's time to pick a winner. You can post your daily lettering to Instagram or to the Facebook group I created for this course.
