

More Than Me

I'm on this road again fighting
The same old relentless demons
A familiar story, unchanged ending,
It's so predictable

Some say we're only human
But we're made for much more than this

**I want to love You more than this life,
Love You with all I am
I wanna love You more than this life,
More than me**

I'm on my knees again crying out for mercy
You are greater than all my failings
Come and lift me higher

I may be only human but You came so I could be free

**I want to love You more than this life,
Love You with all I am
I wanna love You more than this life,
More than me**

*I'm on my knees Lord
I'm on my knees again*

**I want to love You more than this life,
Love You with all I am
I wanna love You more than this life,
More than me**
