

# I Love You

Darkness and light Your love will shine,  
Always there beside me  
Where can I run, where can I hide?  
Your love will always find me

You are the way, Your words are truth  
I live my life to know You  
I lay it all down just to be found  
Fill me up to overflow

**I love You, Your hand is there to guide me  
When I need you Your love will always find me**

Ten thousand may fall at my right but I will keep on standing  
Your Truth within me, my strength and my shield  
How can I keep from singing?

**I love You, Your hand is there to guide me when I need you**

*Can you see, a new season's to begin?  
Can you hear, it's stirring in the wind?  
I can see it, all the nations crying loud  
I can hear it every tribe and tongue singing out*

**I love You  
I need You  
Your love will always find me**
