SBIF FAQS

Additional Q&A
Launched in 1999, the City of Chicago’s Small Business Improvement Fund (SBIF) promotes economic development by providing small businesses and landlords with **reimbursable grants for permanent building improvement costs**. Residential projects are not eligible.

SBIF grants use local Tax Increment Financing (TIF) revenue to reimburse grantees for the pre-approved repair or rehab of their business facilities or adjacent land acquisition. SomerCor is the program administrator contracted by the Chicago Department of Planning and Development.

SBIF Grant Calculation Example:

Grace submits an application for a SBIF grant in an open district with a total eligible project cost of $100,000. She is proposing to make permanent building improvements to her existing retail shop, for which she is the tenant. Grace has been in business for 5 years. Over the last 3 years, her gross sales averaged $1.5 million.

Her breakdown of eligible costs is as follows:

**Total Eligible Project Costs:** $100,000  
**Commercial Tenant Applicant/ gross sales under $3M:** 90% SBIF Grant  
**City responsibility (90%):** $90,000  
**Applicant responsibility (10%):** $10,000

*The SBIF program is a reimbursement grant, so project participants should be prepared with financing to support the permanent building improvements upfront.*

DISCLAIMERS:
• DPD may change the rollout schedule as needed.
• This search tool is a useful guide for residents, however, it is not direct evidence that your address is located in a TIF district. The best way to confirm if your address is located in a TIF is to check your most recent property tax bill. For additional assistance in confirming, contact sbif@cityofchicago.org.

*While not required when submitting the initial application form, please note that these items are required to complete the SBIF application process. Required documents vary depending on applicant type.*
What are the financial requirements to participate in the SBIF program?

The SBIF program is a reimbursable grant, so project participants should be prepared with financing to support the permanent building improvements. Proof of financing is not required until Stage 3, but applicants are encouraged to contact their business lender or reach out to one of the lenders listed on the SomerCor website in a timely manner.

Grantees may choose to complete their projects in phases, rather than requiring 100% of the upfront costs of the project. Applicants will receive an approval for the full scope of work and construction will be completed based on necessity and contractor’s recommendations. The phase disbursements will be based on progress or completion of eligible construction work.

For example, an applicant approved to complete a roof tear-off, HVAC system upgrades, and the installation of a new store front under one application can complete the work in phases. Once the roof improvements are complete and proper paperwork is submitted, the applicant can be reimbursed for that work and then use those funds to address the HVAC upgrades. And then repeat that process to be reimbursed for that and use those funds for the storefront upgrades.
Are start-ups or new businesses eligible?

Yes, most start-ups can apply. Start-up applicants will need to supply a detailed business plan and projections of the business’s income and expenses for its first 36 months of operation as part of their application materials. The City of Chicago reserves the right to impose additional conditions for funding in connection with start-up business applications. If you have only been in business for 1-2 years, SomerCor requires tax returns and a projection of gross sales to equal three years of data.

Please note that bars, taverns, hotels, and motel applicants must have held their applicable license and been in business for at least one calendar year.

Am I eligible if I live outside of Chicago?

The important consideration is where you have your business/property. To participate in SBIF, your property must be in the City of Chicago, as the funding source comes from City of Chicago property taxes. If you live in another area, please call your city’s planning, economic development, or community development department to see what other programs may be available to assist small business.
What if my building has both business and residential spaces?

This program is primarily for business use, but there are mixed use exceptions. For these buildings, many envelope projects such as roofing, facade improvements, and tuck pointing can be eligible.

Will there be enough SBIF funds for all applicants?

Each Tax Increment Financing (TIF) district that has the SBIF program authorized in it has limited funds reserved for the program. If demand for the SBIF funds is greater than the available funding supply, then a lottery will be conducted to determine the order in which each grant application may be accommodated. If any surplus funds become available, they will be allocated to waitlisted applicants.

Applicants for a Property located in an “INVEST South/West Corridor” shall be given priority for funding and the lottery. Applicants for a Property located in a “Target Corridor” shall be second in priority for funding and the lottery. The remaining Applicants shall be provided funding, if available, and placed on the waitlist, if applicable, after Applicants in the INVEST South/West Corridors and the Target Corridors.
Can SBIF be used with other City of Chicago Grant Programs?

No – SBIF cannot be used at the same time as a Neighborhood Opportunity Fund or Chicago Recovery Plan grant on the same project/covering the same work. However, you may apply for multiple grants at the same time and select the best fit for your project, provided you stay within grant timeline requirements.

Is there SBIF funding available in my district?

Every SBIF area has its own budget that the City refills if it has TIF funds available and if there is a demonstrated need for more grant money. We also maintain an interested party list for funds, which you can also send an email to sbif@somercor.com to join. When more funding becomes available, or the City allocates more funds, we will let you know. The interested party list helps the City of Chicago gauge demand for additional funding.

What if I am in a TIF and it is not a SBIF?

Tax Increment Financing (TIF) is the mechanism that funds the Small Business Improvement Fund (SBIF). If you are in a TIF district and it does not have a SBIF, please contact your alderman.
