No.

## **Can I choose the items?**

Absolutely! All boxes are custom to order. Let Katelyn know what you are interested in. Be specific. She'll give you a quote for what you have selected and you can always add more or take away as long as you hit the \$100 minimum.

## **Do you sell just the boxes?**

We are not setup to wholesale our boxes as they are all made individually by hand and rather time consuming. If you are interested in just boxes, there is a 10 box minimum and we offer bulk discounts on a case by case basis. Box prices start at \$30.

## **I want to include florals in the box! Anything I should know?**

SO. MANY. THINGS.

1. We only include florals in our local deliveries.
2. The recipient has to be contacted in advance via phone and home in order to receive a floral delivery.
3. Be 100% certain that the recipient is in town and will be present at the address.
4. If the recipient is not home and we have to setup another day to delivery the florals, you will need to re-buy the florals. They typically make up \$50-\$75 of your order total.
5. While we try very hard to be specific about a person's likes, we are at the mercy of nature when it comes to the blooms. They are highly seasonal. We procure what is fresh and in season. Arrangements are unique to the day they are made.

## **Any chance I can get something for \$50?**
