ADVANCED MINIMALLY INVASIVE VALVE THERAPY INNOVATIONS AND TRENDS

Friday, 8 February 2019
Summary

We offer an interactive course in Zurich focusing on minimally invasive valve therapy. Cardiac surgeons and cardiologists will demonstrate the technical aspects of new procedures in this important field with an emphasis on the success of the teamwork approach.

Learning Objectives

1. **Review and indications of the following techniques:**
   - Minimal access aortic valve replacement
   - Minimally invasive mitral valve surgery
   - Robotic surgery
   - Transcatheter aortic valve and mitral valve therapies
   - New left ventricle assist device

2. **Tips and tricks of these techniques with a surgical case for each procedure**

3. **Experience of a private centre specializing in innovative minimally invasive valve therapies**
