

Environmental Exposures

Examining endocrine disruptors

Elizabeth Neary, M.D., M.S.

Pediatrician

Case 1

- 8 year old boy at endocrine clinic
 - Pubic hair
 - Dark scrotum
 - Prepubertal testes
 - Tanner II breasts
 - Bone age 12 yr with rapid increase in height
 - All lab tests normal

What is going on?

- What is triggering these changes?
- Need more history?
