Nothing To Hide

You didn’t think that I’d notice  
That hope was led by the blind  
You keep it wrapped up and hold it  
Buried deep down inside

A blank thought lost in the past  
The guilt holding the chains  
It’s hard to move with it holding you back  
A false tale but remains

Well you can’t get what you want when I tell that

I’ve got nothing to hide  
Don’t try to make me decide  
Tell me what you see when you’re looking at me  
Tell me does it feel alright  
Cos’ I’ve got nothing to hide

The false hope of salvation,  
Lost in a sea of your lies  
Don’t drag me down to your station  
I won’t be moved by your cries

There was a time when I’d take the blame  
But those days are long gone  
Trust and love are one and the same  
Shot to pieces and it’s done

Well you can’t get what you want when I tell that

I’ve got nothing to hide  
Don’t try to make me decide  
Tell me what you see when you’re looking at me  
Tell me does it feel alright  
Cos’ I’ve got nothing to hide

Tell me what you see when you’re looking at me  
Tell me does it feel alright  
Tell me what you see when you’re looking at me  
Tell me does it feel alright  
Cos’ I’ve got nothing to hide  
Tell me what you see when you’re looking at me  
Cos’ I’ve got nothing to hide  
Tell me does it feel alright
