MICHAEL CINQUINO PHOTOGRAPHY

YOUR TRUTH. PHOTOGRAPHED™

HEADSHOTS · PERSONAL BRANDING · WORKSHOPS

There are few things more satisfying and exciting in my work than hearing a client say: "That's *me*?!" with pleasant surprise after they see a photo we've created.

For the last eight years I've had one job; *inspiring people to become more of who they really are - while I happen to be taking their photograph.* I continue to get to do this for hundreds of unique and inspiring actors, entrepreneurs, musicians, executives and influencers.

The unifying quality that all my subjects share is they are out to change the world in big ways - just like you. They want to attract and connect with their audience on a more intimate level through compelling photos because they know that wherever attention goes, wealth, in all it's forms, will inevitably follow.
