

native potting mix

Product Overview

Like the name suggests, our Native Potting Mix is the perfect choice for native plants, especially phosphorus-sensitive varieties. As with other products in the Garden Health range, Grange Garden Health Native Potting Mix is developed to strict Australian Standards.

Product Benefits

- Contains controlled release fertilizer for balanced plant nutrition over a period of several months.
- Active wetting agent to aid water distribution and protection against plants drying out.
- Excellent water holding capacity so that the plant does not stress in extreme conditions.
- Suitable for all native plants.
- Developed to the Australian standards under SAI Global's AS 3743 guidelines for premium potting mixes.
- Accredited manufacturing process and laboratory tested to ensure optimum pH and electrical conductivity levels.

25 Litres

Manufacturing Process

Manufactured by Grange Growing Solutions, the largest growing media supplier to professional growers in N.S.W. Grange Growing Solutions has three quality assurance certifications attached to their sterile operating facilities, and is a proud supporter of the nursery and garden industry.

Our quality plan and in house laboratory ensures consistency in all Grange Garden Health products.
