

home gardener potting mix

Product Overview

Grange Garden Health Home Gardener Potting Mix is a flexible mix. Like our Premium Potting Mix product, it is developed to Australian Standards levels. Due to its flexibility, Home Gardener Potting Mix is suitable for most plant varieties.

Product Benefits

- Active wetting agent to aid water distribution and protection against plants drying out.
- Obtains optimum air filled porosity allowing the roots air to grow.
- Excellent water holding capacity so that the plant does not stress in extreme conditions.
- Developed to the Australian standards under SAI Global's AS 3743 guidelines for regular potting mixes.
- Accredited manufacturing process and laboratory tested to ensure optimum pH and electrical conductivity levels.
- Contains Coir, a coconut fibre that enhances and improves the mix structure. Contains composted pine bark that has undergone a 12 week composting regime.

Manufacturing Process

Manufactured by Grange Growing Solutions, the largest growing media supplier to professional growers in N.S.W. Grange Growing Solutions has three quality assurance certifications attached to their sterile operating facilities, and is a proud supporter of the nursery and garden industry.

Our quality plan and in house laboratory ensures consistency in all Grange Garden Health products.
