Safety Data Sheet

**Section 1 – PRODUCT IDENTIFICATION**

Material Name:
Hydrocarbon Resin Solution

Trade Name:
LX®-3843 Resin, Solution in Mineral Spirits

Manufacturer Information

Neville Chemical Company
2800 Neville Road
Pittsburgh, PA 15225-1496
Phone: 412-331-4200
Emergency Phone #: 412-331-4200 or CHEMTREC at 800-424-9300
Fax: 412-777-4234

**Section 2 – HAZARD(S) IDENTIFICATION**

Classification in accordance with 29 CFR 1910.1200.

- Flammable liquid, Category 3
- Specific Target Organ Toxicity - Single Exposure, Category 3 (central nervous system and respiratory system)
- Specific Target Organ Toxicity - Repeated Exposure, Category 2 (skin)
- Aspiration Hazard, Category 1

GHS LABEL ELEMENTS

**Signal Word**
DANGER

**Hazard Statement(s)**

- Flammable liquid and vapor
- May cause drowsiness and dizziness
- May cause respiratory irritation
- May cause damage to skin through prolonged or repeated exposure.
- May be fatal if swallowed and enters airways
Safety Data Sheet

Material Name: Hydrocarbon Resin Solution
LX®-3843 Resin, Solution in Mineral Spirits

Precautionary Statement(s)

Prevention
Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe dust, mist, fumes or vapors. Use only outdoors or in a well-ventilated area. Wear protective gloves/clothing and eye/face protection.

Response
In case of fire: Use appropriate media for extinction. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting.

Storage
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.

Disposal
Dispose in accordance with all applicable regulations.

Hazard(s) Not Otherwise Classified
Contact with hot material may cause thermal burns.

Component Related Regulatory Information
This product may be regulated, have exposure limits or other information identified as the following: Naphtha,

Contaminants:
Naphthalene (91-20-3) is contained in most of our raw materials as a non reactive non intentional material. It has a relatively high boiling temperature ( 218 degrees C. ) and has a great affinity for petroleum hydrocarbon resins and thus is very difficult to remove completely from the resins. This product typically contains less than 500 parts per million.

***Section 4 - FIRST-AID MEASURES***

Description of Necessary Measures

Inhalation
IF INHALED: Remove person to fresh air and keep comfortable for breathing. Give artificial respiration if not breathing. Get immediate medical attention.
Safety Data Sheet

Material Name: Hydrocarbon Resin Solution
LX®-3843 Resin, Solution in Mineral Spirits

Skin Contact
Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get immediate medical attention, if needed. Thoroughly clean and dry contaminated clothing before reuse.

Eye Contact
Flush eyes with plenty of water for at least 15 minutes. Then get immediate medical attention.

Ingestion
If swallowed, get medical attention. Do NOT induce vomiting.

Most Important Symptoms/Effects

Acute
Symptoms/effects may include mild skin irritation, mild eye irritation, nervous system damage, respiratory tract irritation, and aspiration hazard.

Delayed
May cause damage to skin through prolonged or repeated exposure.

Indication of Immediate Medical Attention and Special Treatment Needed, If Needed
Provide general supportive measures and treat symptomatically.

**Section 5 - FIRE-FIGHTING MEASURES**

Suitable Extinguishing Media
Dry chemical, carbon dioxide, foam, water spray

Unsuitable Extinguishing Media
Do not use high-pressure water streams.

Special Hazard Arising from the Chemical
Flammable liquid and vapor. May burn if exposed to surrounding fire. When heated above its boiling point, may generate vapors that may ignite in air and a source of ignition. Vapors are heavier than air and can collect in low areas; vapors can travel to an ignition source and flash back.

Upon combustion, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

Fire Fighting Measures
Move container from fire area if it can be done without risk. Dike for later disposal. Use extinguishing agents appropriate for surrounding fire. Avoid inhalation of material or combustion by-products. Stay upwind and keep out of low areas.

Special Protective Equipment and Precautions for Firefighters
Wear full protective fire fighting gear including self contained breathing apparatus (SCBA) for protection against possible exposure.
**Safety Data Sheet**

Material Name: Hydrocarbon Resin Solution
LX®-3843 Resin, Solution in Mineral Spirits

---

**Section 6 - ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**

Wear appropriate personal protective equipment. Keep unnecessary people away, isolate hazard area and deny entry. Avoid contact with skin and eyes. Avoid release to the environment. Only personnel trained for the hazards of this material should perform clean up and disposal.

**Methods and Materials for Containment and Cleaning Up**

Use non-sparking tools and equipment. Keep unnecessary people away, isolate hazard area and deny entry. Absorb with sand or other non-combustible material. Keep out of water supplies, sewers and soil. Collect spilled material in appropriate container for disposal. In case of spillage, stop the flow of material and block any potential routes to water systems.

---

**Section 7 - HANDLING AND STORAGE**

**Precautions for Safe Handling**

Keep away from heat, sparks, open flame, and hot surfaces - No smoking. Wear protective gloves and eye/face protection. Keep away from all ignition sources. Avoid contact with skin and eyes. Always wear recommended personal protective equipment. Wear personal protective clothing and equipment, see Section 8. Take precautionary measures against static discharge. Dissipate static electricity during transfer by earthing (grounding and bonding) containers and equipment. Do not breathe vapor or mist.

**Conditions for Safe Storage, including any Incompatibilities**

Store in a cool, dry place. Store in a well-ventilated area. Avoid contact with molten (hot) material. Keep separated from incompatible substances. Keep container tightly closed. Empty containers may contain product residue. Do not reuse empty containers without commercial cleaning or reconditioning. Store and handle in accordance with all current regulations and standards.

**Incompatibilities:** strong oxidizing materials, combustible materials

Component Exposure Limits

**Appropriate Engineering Controls**

Provide a local exhaust ventilation system. Ventilation equipment should be explosion-resistant if explosive concentrations of material are present. It is recommended that all vapor control equipment such as local exhaust ventilation and material transport systems involved in handling of these product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment. Ensure that vapor-handling systems (such as exhaust ducts, vessels, and processing equipment) are designed in a manner to prevent the escape of vapors into the work area (i.e., there is no leakage from the equipment). Use only appropriately classified electrical equipment and powered industrial trucks.

**Individual Protection Measures, such as Personal Protective Equipment**

**Eyes/Face Protection**

Wear splash resistant safety goggles with a face shield.

**Skin Protection**

Wear appropriate chemical resistant clothing.

**Glove Recommendations**

Wear appropriate chemical resistant gloves.

**Respiratory Protection**

A NIOSH approved respirator with organic vapor cartridges and N95 filters may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits, or when symptoms have been observed that are indicative of overexposure.

**Section 10 - STABILITY AND REACTIVITY**

**Reactivity**  
None known.

**Chemical Stability**  
Stable at normal temperatures and pressure.

**Possibility of Hazardous Reactions**  
Hazardous polymerization will not occur.

**Conditions to Avoid**  
Avoid heat, flames, sparks and other sources of ignition. Avoid contact with incompatible materials. Avoid generating dust. Avoid contact with molten material.

**Incompatible Materials**  
strong oxidizing materials

**Hazardous Decomposition Products**  
Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.
Hazardous Decomposition

Combustion: oxides of carbon, carbon monoxide, hydrocarbons.

**Section 11 - TOXICOLOGICAL INFORMATION**

Acute Toxicity

Component Analysis - LD50/LC50

The components of this material have been reviewed in various sources and the following selected endpoints are published:

**Mineral Spirits (64742-88-7)**
Inhalation LC50 Rat >5.28 mg/L 4 h; Oral LD50 Rat >5000 mg/kg; Dermal LD50 Rabbit 3000 mg/kg

**Naphthalene (91-20-3)**
Dermal LD50 Rabbit >20 g/kg; Inhalation LC50 Rat >340 mg/m3 1 h

Information on Likely Routes of Exposure

Inhalation
May cause drowsiness and dizziness May cause respiratory irritation

Ingestion
May be fatal if swallowed and enters airways

Skin Contact
May cause damage to skin through prolonged or repeated exposure.

Eye Contact
No information on significant adverse effects.

Immediate Effects
Symptoms/effects may include mild skin irritation, mild eye irritation, nervous system damage, respiratory tract irritation, and aspiration hazard.

Delayed Effects
May cause damage to skin through prolonged or repeated exposure.

Medical Conditions Aggravated by Exposure
No data available.

Irritation/Corrosivity Data
May cause respiratory irritation
Material Name: Hydrocarbon Resin Solution
LX®-3843 Resin, Solution in Mineral Spirits

Respiratory Sensitization
No information available for the product.

Dermal Sensitization
No information available for the product.

Germ Cell Mutagenicity
No information available for product.

Carcinogenicity

Bioaccumulation
No information available for the product.

Mobility
No information available for the product.

**Section 13 - DISPOSAL CONSIDERATIONS**

Disposal Methods
Dispose in accordance with all applicable regulations. Regulations vary. Consult local authorities before disposal.

Disposal of Contaminated Packaging
Dispose of waste material according to Local, State, Federal, and Provincial Environmental Regulations.

Component Waste Numbers
The U.S. EPA has not published waste numbers for this product's intentional components.

Canada Regulations

This product has been classified in accordance with the criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

Canadian WHMIS Ingredient Disclosure List (IDL)
Components of this material have been checked against the Canadian WHMIS Ingredients Disclosure List. The List is composed of chemicals which must be identified on MSDSs if they are included in products which meet WHMIS criteria specified in the Controlled Products Regulations and are present above the threshold limits listed on the IDL:
