

REDUCTION REEL PLYWOOD FLANGE

REDUCTION
REELS

Weight capacity: 1,000 lbs.

BENEFITS

REDUCE COSTS

- Reduce reel inventory up to 85%.
- Disposal fees.
- Material handling.
- Transportation and storage fees.

SAVE SPACE

- Better utilization of warehouse space.
- Eliminate outdoor storage.
- No stacking of bulky wooden reels.
- Easily stack on skids.

The Reduction Reel is Evolution's most popular breakdown reel designed specifically to replace the old, bulky, wooden reels. The four-part reel is easy to assemble and breakdown for consolidated shipping and storage. Made with industrial grade, recyclable ABS plastic, the Reduction Reel is built to withstand the rigors of industrial manufacturing and engineered to be used over and over again.

Assemble and disassemble the reel in seconds, minimizing time to load and unload.
