This agreement is The Parkside School’s recognition of our shared responsibility for the health and safety of everyone in our community, including students, staff and family members. It is informed by science and founded on mutual respect. In order for our shared spaces to be as safe as they can be, and to protect the health of ourselves and others, we affirm that we will commit to these behaviors.

Please note: This agreement is based on what we anticipate will be necessary this fall. Should any drastic changes occur, we will send a revised agreement out for the community to review and affirm.

As members of the Parkside community, we affirm our commitment to:

- Following basic health precautions in our daily routine, including mask wearing and frequent hand washing/sanitizing.
- Wearing a face covering over our nose and mouth at all times when at school, unless in conditions where it is safe to remove it.
- Completing the Magnus Health morning screening every day before coming to school (or boarding a school bus)
- Not coming to school if running a fever or feeling unwell, regardless of whether the symptom is one commonly associated with COVID-19.
- Alerting a teacher, administrator or the nurse should you (or your student) feel ill while at school
- Picking up students as quickly as possible should they become ill at school, and, in all cases, no more than an hour after being contacted by the school. Staff who become ill at school should leave school as soon as they are seen by the nurse.
- Even outside of school, Parkside community members are expected to follow city and state public health requirements.

Parkside pledges to do its part, by:

- Following all safety requirements of New York State and City authorities.
- Providing PPE as needed, including masks, hand sanitizer and gloves.
- Maintaining a COVID-19 testing program, understanding that our testing plan might change as the situation progresses.
• Continuing to hold COVID Task Force meetings when necessary to adopt changes in official guidance to Parkside’s policies.

• Sharing information in a prompt and consistent manner.

Each of us has the responsibility to uphold these commitments, and the right to expect the same from others and from Parkside. Our expectation is that all parents, staff and students will adhere to this agreement. In the interest of supporting community health and safety, anyone who does not adhere to these commitments after being asked to do so by an appropriate authority risks being denied access to our school.

Please sign this with the understanding that specific precautions may change as New York State and city guidance evolves, but our commitment to the health and safety of our community will not change.
