THIN ARCHITECTURAL BLOCK

How MUCH IS  
**TWO DAYS**  
WORTH TO YOU?

**McDonald's, Pendelton Pike, Indianapolis, IN**

Short Blurb on this macdonalds. What was done, what color? painted? reason to redo? etc..

**McDonald's, Clinton, Indianapolis, IN**

Short Blurb on this macdonalds. What was done, what color? painted? reason to redo? etc..

**Burger King, Columbus, OH**

Short Blurb on this cebu job. What was done, what color? painted? reason to redo? etc..

**Superior installation times, means you're open for business sooner.**

Cebu Stone's unique AccuTab System installation easily allows the freedom to create walls that make a statement, complimenting any project, affordably. Our studies have shown that Cebu Stone installs in half the time of other products, meaning less time for your remodel to be completed. With all that extra time and profit, Cebu Stone more than pays for itself.

**AccuTab System:**

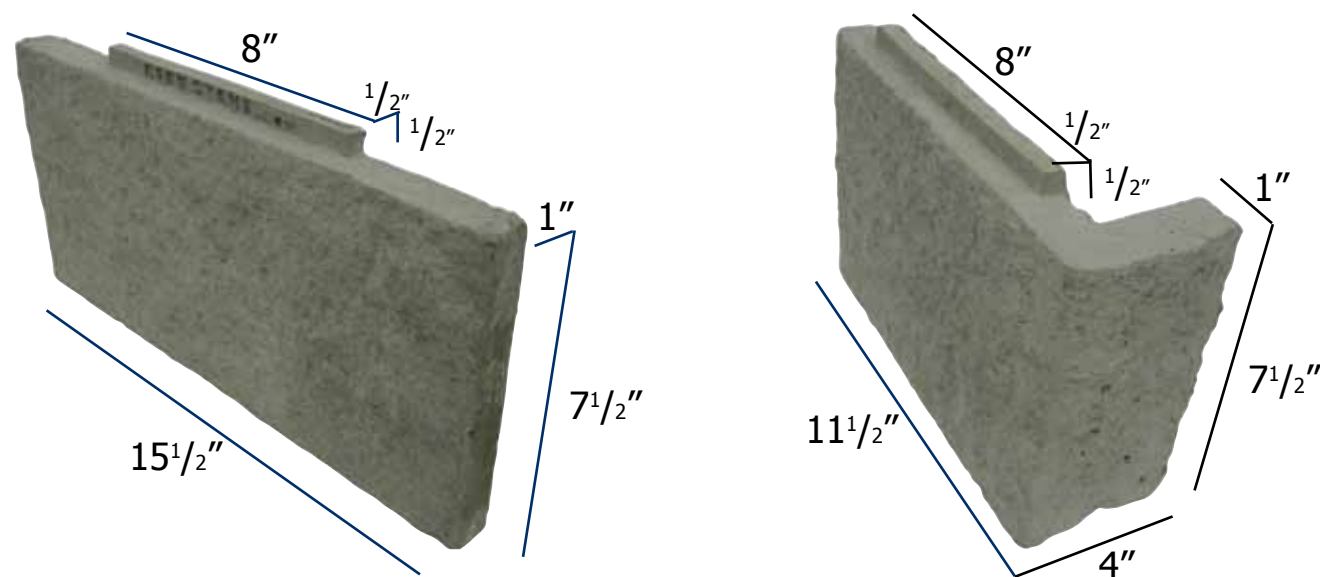

Cebu Stone products incorporate a cast in place spacing system that ensures an efficient and precise installation. This system increases installation efficiency up to 400% versus traditional veneer systems. Contact us today to see how you can take advantage of this unique system.

**Smart Advantages:**

- The distinctive, textured look of Splitface block
- Outstanding curb appeal leads to increased value
- Extremely durable and virtually maintenance free
- Blends well with other exterior finishes
- A seasoned staff ready to offer our services
- Cost Effective
- 25 year written warranty

**Add the look of Architectural Splitface Block to any new or existing building.**

Cebu Stone manufactures a line of thin concrete masonry veneer units that are both lightweight and durable. With a full line of flats, corners and half-high pieces, Cebu Stone can fit any building like a glove. The Cebu Stone AccuTab System allows for an accurate, high production installation.
