

30 Watt SPECTRA

30 Watt Solar Panel

Solar Feed

Up to a max of 1 x 24w lights
Or 4 x 6w lights

Driver

A 30 watt solar panel delivers power during the day to either 1 x 24 watt LED lights.

This system works much the same as a skylight with a sun up sun down effect. Once the sun goes down the light will be off.

*An optional Day/Night kit is available for night time use.
