

65 Watt SPECTRA

65 Watt Solar Panel

Solar Feed

Up to a max of 2 x 24w lights
Or 8 x 6w lights

Driver

A 65 watt solar panel delivers power during the day to either 1 or 2 x 24 watt LED lights.
#Total combined light wattage not to exceed 48 watts.

This system works much the same as a skylight with a sun up sun down effect. Once the sun goes down the light will be off.

*An optional Day/Night kit is available for night time use.
