CHAPTER 22 PLACES TO VOLUNTEER

INTRODUCTION

From art to building salvage, fixing to sharing, composting demonstrations to staffing an information booth, there is a niche in just about every corner of the tri-county area for a Master Recycler. People in this region are excited to have Master Recyclers join in because they know that you know your stuff. Many organizations will make announcements in the monthly newsletter and Master Recycler volunteer calendar online. But they also welcome the Master Recycler who takes the initiative to contact them.

This chapter is devoted to Master Recyclers who would like to find a spot where they can settle in and do some deeper volunteer work. It is a listing of organizations or projects where Master Recyclers have become regulars. Some of them are one-time events that Master Recyclers return to participate in year after year. Some of them are organizations that need your expertise for a one-time special project. Some have on-going projects that need a committed volunteer to take the lead. You will learn about the organization mission, how Master Recyclers have gotten involved in the past, and the contact information. It is up to you what you do next. You can decide to jump in with some of the existing projects or contact an organization and say that you want to use your special talents and see if they have a need for you.

YOUR LOCAL JURISDICTION

During the class, you will have met the staff from the jurisdiction that hosted that particular class and learned about how Master Recyclers can participate in their campaigns. Previous chapters have also discussed many of the local government campaigns by topic. This is a listing of all of the local jurisdictions’ major campaigns and projects so that you can see them at a glance.
