

## **Pandora's Box**

*Music & Lyrics: David Francey*

What's it like behind those eyes  
That watch the weary world go by?  
Unnoticed, unrecognized,  
Unbowed, un-cowed, unbroken

Pandora's box wide open  
Hasp and hinges broken  
Pandora's box wide open

Amid the braying of the herd  
And the steady fraying of the nerves  
The din of a million, million words  
Better left unspoken  
*Pandora's box wide open etc.*

When everybody has a say  
When any dog can have his day  
No leash to keep the beast at bay  
No muzzle to get in the way

The measured words of discontent  
Quiet voice raised in dissent  
Wheels of justice badly bent  
Bent and all but broken  
*Pandora's box wide open etc.*

It's what I see, I can't deny  
The evidence of my own eyes  
Man exalted, man despised  
Man all bent and broken  
*Pandora's box wide open etc.*
