

## **The Test**

Tonight I hold my head up high  
I feel my world is right  
Cause this has passed me by  
And now I see my shining light  
To show me what to be  
It's burning in the night

But now I see it's over  
And I cannot be me  
To keep from going under  
But now I can be free

This has been the answer  
This has been the test  
This has been the only thing I've missed

This life has given me so much  
I can't be held the same  
But I long to feel the touch  
I see the past, I see the fore  
This world is not enough  
It can't be right to claim the score

But now I see things different  
And now I say goodbye  
To keep from going under  
And send me straight up high

This has been the answer  
This has been the test  
This has been the only thing I've missed

But now I see it's over  
And I cannot be me  
To keep from going under  
But now I can be free

This has been the answer  
This has been the test  
This has been the only thing I've missed

*Music & Lyrics: Scott Mackay*
