

Craftsbury Town Planning Commission Minutes of January 21, 2013 Meeting

Present: Bob Alexander, Farley Brown, Dave Rowell, Linda Wells,
Susan Houston, Select Board Representative

Absent: Sharon Moffatt, Tony Jones, Mark Dunbar, Tim Patterson, Gordon Waterhouse

Farley reported on her representative work on the wind moratorium sub-committee of NVDA. The committee passed a non-binding resolution to support the Wind Moratorium Bill presently before the Legislature.

Linda passed out the current Bill DR 13-79 for a three year moratorium on wind electric generation plants.

Bob gave us a copy of the state brochure which outlines state regulation for building permits. Linda will check with Website committee about putting a link on our website to these regulations.

Farley Brown suggested that our focus this year be to develop a town vision. There is grant money available for an undertaking of this kind. We could hold community envisioning sessions with the public and town committees. This could be a town wide joint effort. No action taken since we did not have a quorum.

Linda will follow up on updating Town Map by checking about money available with Effie and getting the map to Wayne.

Next Meeting Monday March 18, 2013
